TO OUR NEIGHBORS

July & August, 1980, Vol. V, No. 4

Over 700 Graduate

Diplomas were bestowed on 719 graduating students during UCSF's commencement exercises in June.

Degrees were awarded to 110 dental students — 86 senior dental and 24 senior dental hygiene. The School of Pharmacy awarded 116 degrees — 96 Doctor of Pharmacy and 10 PhD degrees. Over 300 degrees were awarded by the School of Nursing — 140 baccalaureate and 162 masters. The School of Medicine awarded almost 200 degrees, including 151 MD's, 22 PhD's, and 16 masters. Included in this group were 48 degrees from Langley Porter Psychiatric Institute to students, residents and fellows, including 10 new DMH (Doctor of Mental Health) degrees.

Richard H. Carmona of San Francisco received the prestigious Goldheaded Cane Award, the highest honor a graduating medical student can receive. The Bowl of Hygeia Award, the highest award given by the School of Pharmacy to a graduating senior, went to Manuel Saltiel of Los Angeles.

Student Volunteers

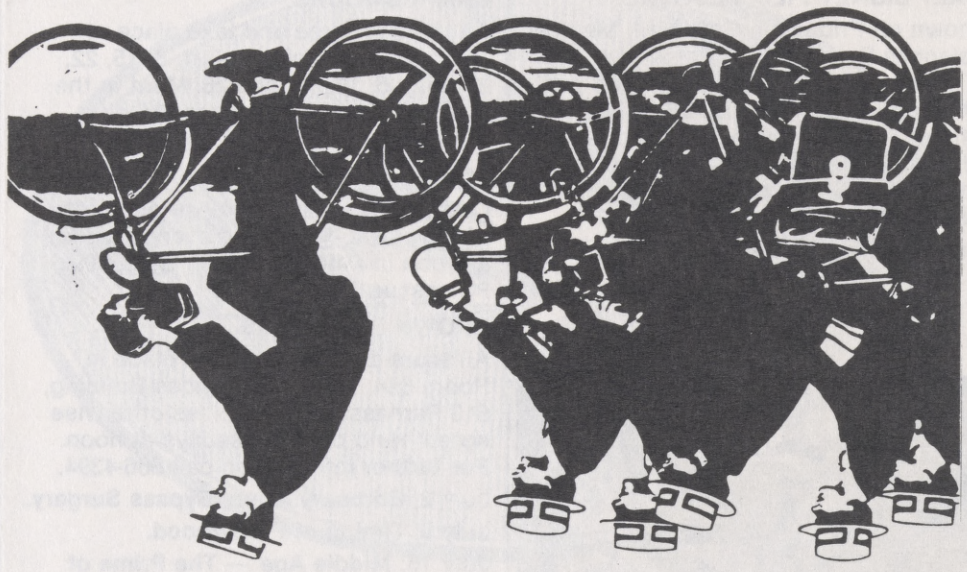
Over 100 students, 16 years of age or older, are volunteering their services during the summer in various areas of the Hospitals and Clinics and other campus locations. The program, sponsored by Volunteer Services, allows the students to work a minimum of 12 hours per week, and will continue through August 31.

Two Major Grants Awarded

Two major grants have been awarded by the federal government to UCSF. One is an $800,000, four-year grant from the Administration on Aging to establish a National Aging Health Policy Center dedicated to the special health and social problems of older Americans — the only one of its kind in the country. It involves the schools of Nursing and Medicine (including its Medical Anthropology and Health Policy Center programs) and will be organized as a multi-disciplinary, multifunctional research, educational, and public service resource.

The second is a grant from the National Institute of Child Health and Human Development for $1.8 million to UCSF scientists to learn more about the causes of premature birth, develop better approaches to its prevention, and improve methods of delivering premature babies. The primary focus will be on the endocrine, immune, and infectious mechanisms involved in premature birth. Some 1600 Bay Area women at high risk to deliver prematurely, who volunteer to participate in the new study, may provide some important clues. Seven distinct but related clinical and basic studies, involving 12 faculty investigators at UCSF and San Francisco General Hospital, will be carried out with the federal money. The close relationship between basic and clinical studies means that new laboratory findings should quickly benefit mothers and babies. The program is under the Department of Obstetrics, Gynecology, and Reproductive Sciences.

Easier Access to UCSF



MUNI's crosstown (north/south) service to UCSF is scheduled to change on Wednesday, August 27, in an attempt to improve MUNI access to UCSF and make it unnecessary to drive to campus — especially for individuals living in the Richmond, Presidio, Marina, Diamond Heights, Portola, Bernal Heights, and Bayview/Hunters Point communities.

Part of a five-year plan, it calls for the extension of the No. 43-Masonic route from Masonic to Cole to Parnassus to 9th Avenue and beyond to the Forest Hill Station, down to Monterey Boulevard, City College, Balboa Park BART Station, ending at Mission and Geneva. In addition, MUNI intends to increase the frequency of the buses on this route. The route on Cole Street to 17th, Roosevelt Way, to 14th and Market will be covered by the 37-Corbett.

The No. 44-O'Shaughnessy, which runs from Diamond Heights to Forest Hill Station, will be upgraded and will replace the No. 10-Monterey, North of Forest Hill Station, going across Golden Gate Park on 10th Avenue and into the Richmond District. It will not travel over Diamond Heights, but instead take O'Shaughnessy Boulevard. On the Southern end it will replace the No. 51-Silver by serving the Hunters Point and Bayview Districts.

For further information call MUNI at 558-5284.

Older Adults Graduate

Sixteen older adults, who have worked as trainees in child care centers throughout San Francisco for the last eight months, graduated from UCSF's Intergenerational Caregiving Project in June.

The participants were part of a unique child-care training program funded by the California Post-Secondary Education Commission. The program provides background information through lectures, discussions, and workshops designed to enhance the participants' understanding, communication, and skills in caring for children.

Training placements have been made at St. Patrick's Day Care Center, Stonestown "Y" Jewish Community Center, John Swett School, the Family Development Center, San Francisco General Hospital Department of Pediatrics, Moffitt Hospital Pediatrics, and the UCSF Child Care and Study Center.

Public Service Directory

A directory summarizing UCSF's public service programs in the community is being updated by the Office of Public Service Programs.

The directory includes listings of educational or support services directed to individuals and groups off campus. Teaching and research in community settings and individual membership on community boards and committees will be listed as well.

After completion, the directory will be made available to departments on campus.

Children's Film Festival

The third annual Millberry Union Children's Film Festival will be held during the Summer on Fridays in Cole Hall, 513 Parnassus Avenue. Each feature will have four shows — 10 a.m., 1:30, 6:30, and 8 p.m., in order to accommodate both day care centers and families. Group rates of 10 or more will be available at the 10 a.m. and 1:30 p.m. shows. To make a reservation call 666-2019.

The following Walt Disney classics are in the summer lineup: *Sleeping Beauty,* July 25; *The Jungle Book,* August 8; and *The Rescuers,* August 22. Admission for children under 14 is $1; UCSF students and Millberry Union members, $1.50; and general, $2. Group admission for children under 14 is $.75.

Call Millberry Union at 666-1800 to confirm show dates and obtain a free children's Summer Fun brochure.

Help for Smokers

The Habit Abatement Clinic of Langley Porter Psychiatric Institute is now accepting applications from smokers between the ages of 18 and 55 to receive treatments designed to help stop smoking and become non-smokers permanently. There is no fee; however a $65 refundable deposit is required. Orientation meetings for the summer session will be held the week of July 21. Interested persons should contact Deborah Rugg, the Habit Abatement Clinic, 681-8080, extension 453.
